Blitzwolf 84 inch projection screen BW-VS12

The Blitzwolf BW-VS12 84-inch model is a compact and portable projection screen designed for convenient use at home, in the office and outdoors. It supports 16:9 and 4:3 aspect ratios, offering full compatibility with 3D and 4K HD projectors. Thanks to its multi-layer surface with imaging layer, the screen provides a crisp, detailed image with intense colors. The foldable design and the ability to be tripod-mounted or suspended make it a versatile solution for many situations.

Robust design and flexible mounting

The BW-VS12 allows use in two modes - as a free-standing screen on a sturdy tripod or hung on a wall. With simple height and angle adjustment, the screen can be easily adjusted to suit room conditions and viewer position. The entire structure is lightweight and easy to transport, allowing you to quickly prepare for a screening almost anywhere - from the living room to the garden.

High projection quality thanks to the multi-layer surface

The screen surface consists of several specialized layers, including PVC, a fibrous layer and an imaging layer with enhanced light sensitivity. This design allows for better contrast, saturated colors and increased image sharpness. In addition, the diffused light technology reduces eye fatigue, making the screen suitable for both short presentations and long movie sessions.

Versatile use and convenient storage

The Blitzwolf BW-VS12 supports two of the most popular aspect ratios, which significantly increases its functionality. The 16:9 aspect ratio is the ideal choice for watching movies, series, games or video broadcasts in modern widescreen standard. The 4:3 aspect ratio, on the other hand, is perfect for business and educational applications, such as slide presentations and lectures. The ability to switch between these modes makes the screen flexibly adaptable to different types of content, projectors and work environments. The compact format when folded makes it easy to store and allows you to easily move the screen where you need it.

Included

- 1x Projection screen
- 1x Tripod
- 1x Installation accessory kit

Brand	BlitzWolf
Manufacturer model	BW-VS12 84-inch
