

## Switch MIKROTIK CRS320-8P-8B- 4S+RM 17x10Base-T 100Base-TX 1000Base-T 4xSFP+ CRS320- 8P-8B-4S+RM

Model: CRS320-8P-8B-4S+RM

Manufacturer: MIKROTIK

EAN: 4752224008831

Product Code: 193640

## R9,539

CRS320-8P-8B-4S+RM Cable management can get really exhausting. But it doesn't have to. Our first PoE++ or 802.3bt switch can make your cable management so much easier, as it can output enough power for all your hotel, conference hall, office and high-rise building needs!

4K security cameras with built-in winter heating elements, LED ad screens, PoE-powered light

fixtures – CRS320 can output up to 90W per port, enough even for the most demanding devices! It comes with a reliable 600 W power supply, but we’ve reserved an expansion slot for an additional PSU, in case you need to raise the power output to 1150 W.

There are 17 Gigabit Ethernet ports: #1 - #8 Gigabit Ethernet ports with 802.3af/at PoE-out, #9 - #16 802.3bt PoE++ ports, and an extra Gigabit Ethernet port for management purposes. There’s also a console port, and four 10G SFP+ fiber ports for uplink.

At its core, this convenient switch has a phenomenal Marvel switch-chip – the same one you’ve seen in ISP bestsellers like the netPower 16P and netFiber 9! It can handle the heaviest loads, including VLAN-filtering and hardware-offloaded Layer-3 routing.

If you’ve been looking for a way to simplify your cable management – this is it! With a single CRS320, you can ditch that endless mess of DC power adapters and start living the clean minimalist PoE dream.

Unlike our previous 802.3af/at Power Sourcing Equipment, this is our first PoE switch with full implementation of the 802.3af/at/bt standard. It supports only fully compliant 802.3 at/af/bt Powered Devices - mAP-lite / RB1100AHx4 / CRS510-8XS-2XQ / CRS504-4XQ / FTC11XG / CRS305-1G-4S+OUT. While it can also power “802.3af/at/bt-compatible” Powered Devices, you must avoid specific grounding scenarios. Please refer to the official Help page. .

A hot-swappable PSU is included.

Summary: Mikrotik CRS320-8P-8B-4S+RM. Basic switching RJ-45 Ethernet ports type: Gigabit Ethernet (10/100/1000), Basic switching RJ-45 Ethernet ports quantity: 17, Console port: RJ-45. Networking standards: IEEE 802.3af, IEEE 802.3at. Power over Ethernet (PoE). Rack mounting | Vendor Homepage: [https://mikrotik.com/product/crs320\\_8p\\_8b\\_4s\\_rm#fndtn-specifications](https://mikrotik.com/product/crs320_8p_8b_4s_rm#fndtn-specifications) | Basic switching RJ-45 Ethernet ports quantity: 17 | Basic switching RJ-45 Ethernet ports type: Gigabit Ethernet (10/100/1000) | Console port: RJ-45 | SFP+ module slots quantity: 4 | 10G support: Yes | Networking standards: IEEE 802.3af/IEEE 802.3at | Rack mounting: Yes | Reset button: Yes | Built-in processor: Yes | Flash memory: 32 | Internal memory: 256 | Mean time between failures (MTBF): 200000 | Operating system installed: RouterOS | Processor frequency: 800 | Processor manufacturer:
