

KEYBOARD ALLOY RISE BLACK/7G7A3AA#ABA HYPERX

Model: 7G7A3AA#ABA

Manufacturer: HYPERX

EAN: 197192333839

Product Code: 193866

R4,364 ~~R4,809~~

The gaming keyboard, elevated.

As the world's most customizable toolless mechanical gaming keyboard on the market^[5], the HyperX Alloy Rise takes personalization to the next level. Not only can you hot swap in key switches, but also magnetic top plates, badges, and more. All that customization is built onto the Alloy Rise's solid frame and ultra-responsive 8k polling rate. Out of the box, this keyboard features pre-lubed HyperX Linear Switches rated for up to 80 million keypresses¹ as well as pre-installed HyperX PBT Keycaps. You'll also get an upgraded RGB experience courtesy of the ambient light sensor that auto-adjusts the brightness, 10 keyboard profiles saved directly to the keyboard, and powerful customization via HyperX NGENUITY Software. Get one step closer to your endgame with the HyperX Alloy Rise.

- With swappable toolless top plates, badges, and rotary knobs, you'll have a wealth of ways to show off your own individual style^[2]. Rise up!

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

- Take keyboard personalization even further with the ability to hot-swap your key switches of choice into the board.
- Alloy Rise is the world's first gaming keyboard to introduce an ambient light sensor that dynamically adjusts the backlighting of your RGB to your environmental lighting conditions^[5]. Just tweak your preferences in NGENUITY and you're set!
- The Alloy Rise is gasket mounted, and pairs that feature with smooth, easy-actuating HyperX Linear Switches to make your typing an even more comfortable experience.
- HyperX Linear Switches^[3] have a half-wall POM stem for better stability of the preinstalled HyperX PBT Keycaps. They're also factory-lubed for smooth actuation and rated for up to 80 million keypresses^[1].
- Take control of your entertainment with dedicated media controls for forward, back, play and pause. Use the rotary knob to adjust or mute the volume.
- With the ability to save a whopping 10 profiles directly to your keyboard, you'll be able to have a lighting and macro setup ready for any situation, anywhere.
- The detachable, left-aligned USB connection makes cable management and transport a breeze.

[1] Keyboard testing Process is not a guarantee of future performance under these test conditions.

[2] Additional accessories are sold separately.

[3] Only HyperX Linear Switches are included with the purchase.

[5] Based on HyperX's internal analysis as of Jan 2024. Toolless based on aluminum top frame, hard enamel badges, and rotary knob. Gaming keyboards based on all keyboards with RGB backlighting, mechanical switches, and software customization.
