Orion Spectrum is our fastest RGB mechanical gaming keyboard, featuring Romer-G mechanical switches that offer up to 25 percent faster actuation. Every key can be customized from a palette of 16 million colors, each of which is centrally lit for bright, attractive illumination. 9 individually programmable G-keys let you instantly access important commands and macros. With Arx Control integration, your iOS and Android devices can offer in-game updates, media controls, and more. Comfortable palm rest and optimal key placement offer both comfort and precision. This is our most advanced gaming keyboard ever. Orion Spectrum lights the future.

- Exclusive Romer-G mechanical switches make Orion Spectrum our fastest keyboard ever. 1.5 mm actuation makes it possible for Orion Spectrum to receive input up to 25 percent faster than leading competitors, with 40 percent more durability at 70 million keystrokes.
