R2,379 ~~R2,504~~

A Legend Reborn.

The HyperX Cloud III is an evolution of our legendary Cloud II, which is known for its comfort, sound quality, and durability. With plush HyperX signature memory foam in the headband and ear cushions, it provides a comfortable fit perfect for long gaming sessions. It also features new, retuned 53mm drivers that are angled for an optimal listening experience. The upgraded 10mm microphone captures crystal clear in-game voice chat and calls. Simple controls on the headset earcup allow you to have quick, direct access to mute your mic or adjust audio volume. The LED mic mute clearly shows when you're muted. Compatible with PC, PS5, PS4, Xbox Series X|S, Xbox One, Nintendo Switch, Mac, and Mobile. Experience ultimate comfort and sound across your favorite platforms.

- Comfort's in the Cloud III's DNA. HyperX signature memory foam in the headband and ear cushions wrapped in soft, premium leatherette make for a plush, comfortable fit all around.
- Angled 53mm drivers have been tuned by HyperX audio engineers to provide the optimal listening experience that accents the dynamic sounds of gaming.
- Captures high-quality audio for clear voice chat and calls. The mic is noise-cancelling and features a built-in mesh filter to reduce disruptive sounds. It also features an LED mic mute indicator that lets you know when you're muted.
- The headset is flexible and features a full metal frame so it's resilient against travel, accidents, mishaps, and those 'level-headed' reactions to losses and defeat screens.
- A lifetime activation of DTS Spatial Audio will help amp up your audio advantage and immersion on PC with its precise sound localization and virtual 3D sound stage.
- Dodge annoying in-game and system menus. Quickly adjust the headphone volume and mute your microphone with controls right on the Cloud III's earcup.
- The Cloud III is compatible with PC, PS5, PS4, Xbox Series X/S, Xbox One, Nintendo Switch, Mac and mobile devices. 3.5mm, USB-A, and USB-C connectors are included for maximum compatibility, no matter how you game.
