

## **KEYBOARD + I/O HUB 9IN1/0.6M HMC-KB-GE AXAGON**

Model: HMC-KB-GE

Manufacturer: AXAGON

Product Code: 194271

# **R1,977**

### **Multiport hub with keyboard 9in1**

AXAGON HMC-KB KEYBOARD hub transforms your mobile device into a computer workstation. The hub hides three USB-A 5Gbps ports, HDMI 4K/60Hz output, memory card reader, 3.5mm audio output and 100W Power Delivery. A built-in keyboard with adjustable backlighting and 12 multimedia keys is a bonus.

hub turns your phone, tablet or mini-laptop into a full-fledged computer workplace. You connect your mobile device to the 9in1 docking station via the supplied 60 cm long cable. In no time, you have an integrated keyboard, SD and microSD card reader, and connectors for connecting an external monitor, three USB devices, headphones or headset, and Power Delivery power. However, it is necessary that the USB-C port of your mobile device supports video output (DisplayPort Alternate Mode) and Power Delivery.

The keyboard, built into an elegant aluminum hub body, is equipped with chiclet keys with a scissor mechanism and 2 mm stroke for precise and quiet typing. The keyboard offers adjustable backlighting in 5 levels, 12 multimedia keys and the possibility of increasing the inclination for comfortable and ergonomic use. Of course, the keys are printed with English localization.

The HDMI output enables the connection of an external monitor, TV or projector with a resolution of up to 4K/60Hz Ultra HD, 2K/120Hz Quad HD or 1080p/200Hz Full HD and the transmission of multi-channel audio. Thanks to HDR support, you can enjoy a significantly expanded range of colours and contrasts without limitations.

Three USB-A 5Gbps outputs allow connection of external drives (up to 2 at the same time), flash drive, mouse, printer and other USB accessories. The USB ports also charge mobile phones and tablets with a power of up to 7.5W. The memory card reader supports reading and writing of all versions of SD and microSD cards with a capacity of up to 2TB. The card reader enables simultaneous handling of cards in both slots and direct copying between them. The 3.5 mm audio output offers the possibility of connecting stereo headphones, a headset or active speakers.

The PD USB-C input is designed for a suitable Power Delivery charger. This allows both your mobile device and the hub to be powered directly from the PD charger using Power Delivery 3.0 technology with up to 100W of power.

The Multiport Hub with Keyboard is especially ideal for users of phones and tablets Samsung's DeX-enabled Z-series Fold (from Fold3), Galaxy S (from S9), Note (from Note8) and Galaxy Tab S (from S4 except Lite and FE versions). The Dock also enables desktop mode for the Apple iPad Pro and iPad Air (from 2022) tablets. In addition, it ensures compatibility with iPad mini (from 2021) and with iPhone 15 Pro / Pro Max phones, while the image is transferred via mirroring.
