R4,274

Outstanding outcomes require outstanding call performance, and seamless, professional audio makes all the difference. They took the incredible call performance of world-leading Evolve Series, and they made it even better, building in three strategically placed powerful professional microphones and adding advanced digital chipset and latest signal processing technology. The result is outstanding call quality, every time. It's not just a great call. It's the new standard of great calls. Satisfaction guaranteed isn't something you hear very often these days, but they're bringing it back;

Evolve2 65 works with all leading Unified Communications(UC)platforms, for truly seamless collaboration. If your UC platform of choice is Microsoft Teams, the Teams-certified variant is perfectly adapted and optimized to give you the best experience with the platform.

They've built this headset with powerful leak-tolerant 40 mm speakers and powered it with most advanced digital chipset ever. With Evolve, they brought you great music while you work. With Evolve2, they're taking audio quality to a whole new level. It's a professional headset, but not as you know it.
