

HPE IMC Std and Ent Add 50-node E-LTU

Model: JG749AAE

Manufacturer: HEWLETT PACKARD ENTERPRISE

Product Code: 204175

R89,169

HPE Intelligent Management Center (IMC) is a unified, single-pane infrastructure management solution that provides visibility across entire networks, enabling complete management of resources, services, and users. HPE IMC unifies management of wired, wireless, physical, and virtual resources - and their users - leading to increased performance, enhanced security, and reduced infrastructure complexity and costs.

HPE IMC is a comprehensive, modular platform with the flexibility and scalability to meet the needs of networks in the SMB or the global enterprise arena. IMC software delivers superior visibility and management by consolidating a host of traditionally separate management tools, including those for managing the network's elements or resources, its services, and its users.

Product Description: HPE Intelligent Management Center Standard and Enterprise - licence - 50 additional nodes | Product Type: Licence | Category: Networking applications - system & remote management | Licence Qty: 50 additional nodes | Distribution Media: Electronic
