

HPE PMM to IMC WSM Upg w/250-node E- LTU

Model: JG769AAE

Manufacturer: HEWLETT PACKARD ENTERPRISE

Product Code: 204177

R104,928

H3C Intelligent Management Center (IMC) delivers integrated and modular network management capabilities that efficiently meet the end-to-end management needs of advanced, heterogeneous enterprise networks. Designed on a service-oriented architecture that effectively integrates traditionally disparate management tools, IMC can be deployed across multiple servers to provide complete management of resources, services and users. Highly available, self-contained and scalable, IMC supports the management of 3Com H3C and third-party devices.

Product Description: HPE Intelligent Management Center Wireless Service Manager - product upgrade licence - 250 nodes | Product Type: Product upgrade licence | Category: Networking applications - system & remote management | Licence Qty: 250 nodes | Distribution Media: Electronic
