

HPE RH HA 2 Sckt/2 Gst 5yr E- LTU

Model: Q0D25AAE

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017085913

Product Code: 205898

R52,615

The High Availability Add-On is a clustered system that provides reliability, scalability, and availability to critical production services. The High Availability Add-On consists of a number of major components. Cluster infrastructure provides fundamental functions for nodes to work together as a cluster: configuration-file management, membership management, lock management, and fencing. High availability Service Management provides failover of services from one cluster node to another in case a node becomes inoperative. Cluster administration tools serve for setting up, configuring, and managing the High Availability Add-On.

Product Description: Red Hat Enterprise Linux High Availability Add-On - subscription (5 years) - 2 sockets, 2 guests | Product Type: Subscription - 5 years | Category: Networking applications - monitoring & performance management, storage management | Licence Qty: 2 sockets, 2 guests | Licensing Details: ESD | Platform: Linux
