Oneodio Fusion A70 wireless headphones (brown)

Are you looking for a professional piece of equipment that will also serve your everyday needs? The OneOdio A70 headphones are the device you've been looking for! They are equally suitable for DJ and as everyday headphones. You will connect them to various equipment like phones, tablets, speakers or electric guitars. Want to get rid of tangled wires? This problem will disappear with the wireless connection of the headphones. What's more, the special design will make their use very comfortable.

Multiple connection options

You can connect OneOdio headphones exactly the way you like. One cable with a 3.5mm to 6.35mm tip gives you the opportunity to connect equally with phones, tablets and laptops, but also with electric guitars or mixers. What's more, special technology will allow two people to listen to the same music simultaneously on different equipment. Want to dispense with tangled cables? Bluetooth 5.2 technology, with which the headphones are equipped, will allow you to conveniently connect wirelessly.

Long-lasting operation

Want to enjoy the work of the headphones without limits? Opt for a wired connection using the special cable you'll find in the set. However, if you opt for a wireless connection, you can enjoy long operation, up to 50 hours. Such a long operating time is due to a Li-ion battery with a capacity of 950 mAh. This makes the equipment ideal equally for everyday use and the work of a professional DJ.

High quality

Want to enjoy great sound, no matter which way you choose to connect? OneOdio A70 headphones can guarantee you that! What's more, you don't have to worry about accidentally pulling out the cable, as you can lock it into the headphones by twisting it. Convenient control of the equipment will allow you to use the buttons on the side. The headphones are also equipped with noise cancellation technology, so that any of your phone conversations will always be understandable.

Convenience of use

If you're looking for comfortable equipment, choose the A70 headphones. The headband, so that you can fit it to the size of your head, is adjustable. What's more, the earcups themselves have the ability to rotate 90 degrees. For better storage and transportation, the headphones are foldable, and a pouch has been included. You can wear the OneOdio gear for many hours, as its earcups are very soft, so they will be comfortable to wear.

Included:

- A70 headphones
