Huion H610X graphics tablet

The Huion H610X graphics tablet is a unique model created to celebrate a decade of the Huion brand. It combines refined design, high functionality and reliability that both novice artists and experienced graphic designers expect. The lightweight design, large working area, 8 programmable buttons and precise battery-free pen make this model a versatile tool for drawing, designing and remote work. Compatibility with multiple operating systems and popular graphics software guarantees creative freedom in any situation.

Sleek design

Huion H610X impresses with its sleek and minimalist design. With a thickness of only 8 mm and a weight of 515 g, it is ideal as a companion for work in the field - it is easy to carry in a backpack or bag. Its compact form conceals a spacious working area, which accounts for as much as 77% of the tablet's entire surface. This gives you the comfort of working without compromise while keeping your desk in perfect order.

Ergonomics and productivity in your hands

To make your work more efficient, the tablet is equipped with 8 programmable buttons that can be freely configured for the most frequently used functions. This greatly speeds up the creative process and allows you to focus on the creation itself, without having to use the keyboard all the time.

A natural drawing experience like on paper

A full-surface panel with a paper-like matte finish provides an extremely natural drawing experience. It's this texture that makes every pen stroke feel like traditional sketching - precise and fluid.

Reliable battery-free pen

The tablet comes with the highly regarded PW100 pen. Its battery-free design eliminates the need for recharging, and its advanced performance (8192 pressure levels, tilt recognition up to $\pm 60^\circ$, and refresh rate $>220\text{PPS}$) ensures ultimate precision and control over every stroke.

Fast and seamless connection

The tablet features an intuitive USB-C port for fast and reliable connection to a computer or smartphone. The foolproof design supports two-way connection, which eliminates the risk of errors and further enhances user convenience.

Universal compatibility and developer support

Huion H610X works with Windows, macOS, Android, Linux and ChromeOS. Regardless of your preferred working environment, you can use your favorite graphics programs - from Photoshop and Illustrator, to Krita, CLIP Studio or GIMP. The tablet will prove useful not only for drawing, but also for online teaching or video conferencing.
