

## Huion Kamvas 13 GS1331 graphics tablet

Model: GS1331

Manufacturer: HUION

EAN: 6930444801472

Product Code: 206933

# R4,729

### Huion Kamvas 13 GS1331 graphics tablet

Kamvas 13 is a graphics tablet that combines mobility, convenience and professional capabilities in a lightweight, stylish form factor. Equipped with a Full HD screen, stylus with PenTech 3.0 technology and 8 programmable buttons, it puts you in full control of the creative process - whether you're just getting started with graphics or working professionally.

### Sleek, lightweight and ready to work on the go

At just 11.8 mm thick and 980 g in weight, Kamvas 13 is designed with mobility in mind. You throw it in your bag and go - whether you're drawing at a coffee shop, in the park or at the university.

### Easy connection - just one cable

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

You can connect the tablet with a classic 3-in-1 (HDMI) cable or use a USB-C to USB-C connection - no adapters or mess. It also works directly on laptop power - just one 5V USB socket is enough.

## **It also supports Android**

Kamvas 13 is Huion's first graphics tablet that you can connect directly to an Android smartphone or tablet. It's perfect if you want to sketch or edit graphics away from home.

## **Vivid colors and wide viewing angles**

Kamvas 13 is equipped with a 13.3-inch Full HD (1920 × 1080 px) IPS screen, which guarantees sharpness, detail and great contrast even with fine elements. With 120% coverage of the sRGB color space, colors are saturated, vibrant and faithfully reproduced - exactly what you need for illustration, retouching or graphic design. With a wide 178° viewing angle, the image remains consistent from all angles, making it easy to work in duo or present effects. This is topped off with a matte anti-reflective coating that eliminates glare, and full lamination so that the cursor always aligns perfectly with the stylus tip - no parallax or misalignment.

## **PenTech 3.0 stylus - natural movements, zero charging**

You'll find a battery-free PW517 stylus that responds precisely to every movement of your hand. It offers 8192 levels of pressure,  $\pm 60^\circ$  tilt angle, 5080 LPI resolution and 266 PPS reporting speed, which translates into smooth, natural lines - no lag or delay. The improved tip provides more stability and better contact with the surface, making drawing more like working with a classic tool.

## **Work as you are comfortable**

Kamvas 13 offers two modes - you can use it as a pen display or switch to classic graphics tablet mode by turning off the screen. This is a convenient option when you want to work more mobile or need to save power.

## **Everything at hand**

The tablet is equipped with 8 programmable buttons that you can set for your favorite shortcuts - from changing tools to undo and zoom. That's a real time-saver and more convenience for every creative session.

## The compatibility you need

Kamvas 13 works with Windows 7+, macOS 10.12+, Linux and Android devices (USB 3.1 Gen 1). It works with all popular graphics programs: Photoshop, Illustrator, Clip Studio Paint, Krita, SAI and many others. Work in the programs you like and know best!
