

Huion Kamvas 16 GEN 3 GS1563 graphics tablet

Model: GS1563

Manufacturer: HUION

EAN: 6930444805647

Product Code: 206935

R10,569

Huion Kamvas 16 GEN 3 GS1563 graphics tablet

Designed for professional illustrators, animators and concept artists, the Kamvas 16 (Gen 3) is a graphics tablet that meets high expectations. The 15.8-inch screen with 2.5K QHD resolution guarantees a sharp and detailed image, while PenTech 4.0 pen technology provides superior sensitivity, precision and naturalness to every movement. The matte Canvas Glass surface mimics paper for a realistic drawing experience, while dual dials and customizable buttons let you work faster and more comfortably. It's a versatile, modern tool that simply keeps up with your creativity.

A screen that shows every detail

Kamvas 16 (Gen 3) offers a resolution of 2560 × 1440 px (QHD) at 15.8 inches, resulting in a pixel density of 186 PPI - perfect for working with detail. The screen covers up to 99% sRGB, 90% Adobe

RGB and 99% Rec.709, so you can work in the exact color space your project requires. The 16.7 million colors (8-bit) and 1000:1 contrast ratio make the image vivid, deep and extremely realistic. Each unit is factory calibrated ($\Delta E1.5$), as confirmed by the included report - you can be sure you see exactly what you planned.

New drawing technology - PenTech 4.0

The PW600L stylus, based on PenTech 4.0 technology, is a real gamechanger in the world of digital drawing. With a high-precision sensor, a resolution of 5080 LPI, a reading frequency of more than 260 PPS and up to 16,384 levels of pressure, every stroke is smooth, natural and exactly as you intend. It responds to as little as a light touch (from 2g), and you can adjust the maximum pressure from 200g to 500g, which is great for shading and layering work. A tilt of $\pm 60^\circ$ allows you to achieve brush- or pencil-like effects. There are also three programmable buttons to speed up work, and a non-slip silicone grip that is dust-resistant and feels great in the hand. The reduced tip and minimal retraction distance (just 0.35 mm) provide maximum control and visibility - just like a traditional tool.

Surface like a real canvas

The Kamvas 16 (Gen 3) screen is covered with state-of-the-art Canvas Glass - matte, anti-glare and fully laminated. Thanks to the Low Sparkle coating, the image is clear even on solid backgrounds, and the fine texture resembles paper, making drawing more natural and enjoyable.

More control with dials and buttons

The tablet features 6 quiet buttons and 2 functional dials that you can freely assign to your favorite shortcuts - from changing tools to rotating the canvas. The knobs protrude slightly from the case, so they are easy to operate while working. Kamvas 16 (Gen 3) works great for both right- and left-handed users.

Work the way you like - display and tablet mode

Kamvas 16 (Gen 3) allows you to switch between pen display mode (with on-screen preview) and pen tablet mode (without preview), which works especially well during long work sessions. It's a convenient option for those who want to relieve eye strain or conserve device power.

Stable connections and convenient operation

The tablet offers two ports - a full-function USB-C and a 3-in-1 connector - and you can connect it to a computer, laptop or compatible Android smartphone (supporting USB 3.1 + DP 1.2). The stable connection prevents accidental disconnection during operation, and you gain more flexibility.

Compatibility and support for popular software

Kamvas 16 (Gen 3) works with Windows 10+, macOS 10.12+, Linux (Ubuntu 20.04 LTS) and Android (USB 3.1 + DP 1.2). It works with the most popular graphics applications - such as Photoshop, Illustrator, Clip Studio Paint, Krita, Blender, SAI and many others. You are free to work in the environment that suits you best!

Included

- graphics tablet x 1
- 3-in-1 cable (1.8 m) x 1
- USB power cable x 1
- fully functional USB-C to USB-C cable x 1
- USB-A extension cable (1.2 m) x 1
- USB power adapter x 1
- PW600L digital stylus x 1
- PH06 stylus holder x 1
- stylus cartridge PN06 x 10 (included with stylus holder)
- cleaning cloth x 1
- glove x 1
- user manual

Color	Black
Dimensions	421.2 x 236.81 x 12.62 mm
Working area	350 x 197 mm (15.8")
Net weight	1,245 kg
Touch	-
Stand	ST300 (optional)
Video interface	USB-C 3-in-1, full-featured USB-C port
Input voltage	AC 100-240V, 50/60Hz
Output voltage	5V 3A
Power consumption	≤7W
Operating temperature and humidity	0-40°C □ 20-80%
Storage temperature and humidity	-20°C~60°C □ 10-90%
Compatible with operating system	Windows 7 or later, macOS 10.12 or later, Android (USB3.1 DP1.2 or later), Linux (Ubuntu 20.04 LTS)

Screen

Resolution	2560 x 1440 (16:9) QHD
LCD type	IPS
AG glass	2nd generation, anti-reflective etched glass
Full lamination	YES
Contrast ratio	1000:1
Brightness	220 cd/m ²
Response time	14 ms
Viewing angle	89°/89°(H)/89°/89°(V) (typ.)(CR □ 10)
Color gamut range	120% sRGB
Displayed color	16.7 million (8 bits)
