

## Millenium MO1ADVANCED

Model: MO1ADVANCED

Manufacturer: MILLENIUM

EAN: 3527570062896

Product Code: 275768

## R811

This improved version of the MO1 mouse will allow you to increase your speed and accuracy with an optical sensor of up to 8000 DPI. Complemented with a frequency 1000 Hz, you will benefit from an exemplary reactivity to make you stand out on the games which require a precision and a flawless speed. This mouse is ideal for FPS or Battle Royale players!

To adapt your mouse to your style of play, you can easily set the number of DPI and the backlight of your mouse Millenium with software. To support the player's performance, the weight of the mouse has also been studied to be as light as possible in order to facilitate the player's movements and bring a better playing comfort on rough sessions.

The strength of a mouse is crucial for surviving long and tough gaming sessions. That's why our MO1 Advanced mice have been studied and tested in all conditions to ensure resistance and responsiveness to any challenge. They can support more than 10 million clicks which make them the best allies of the player in time!
