Lenovo ThinkCentre neo 50q Gen 5 combines compact design with robust performance, making it a choice for both home and office use. This ultra-small form factor PC features an Intel Core 5 processor with 8 cores and speeds of up to 4.8 GHz, providing the power needed for multitasking and demanding applications. The system supports DDR5 SDRAM, ensuring fast data transfer rates and efficient memory management. With integrated Realtek ALC256 audio codec and built-in speakers, experience seamless audio output for video conferencing or entertainment.

Expandability is simple with two M.2 SSD slots, allowing for increased storage without compromising the small footprint. Connectivity options include multiple USB ports, HDMI, and DisplayPort, enabling the connection of various devices. Advanced security features, such as a chassis intrusion switch and
