

LANBERG switch rack 10inch/19inch 16-port 1GB RSGE-16 unmanaged

Model: RSGE-16

Manufacturer: LANBERG

EAN: 5901969429015

Product Code: 301569

R1,375

The switch is an essential active networking device in any Ethernet infrastructure structure using transmission through structural cabling. RSGE-16 is dedicated to all installations: home, business, low-voltage, surveillance, IP, VoIP, cable TV networks.

Its proper housing and included mounting ears allow for installation in server cabinets. The available features allow for versatile use in any configuration, bus topology, and microchip used to ensure Gigabit Ethernet speed.

All this makes the switch dedicated for use in demanding and wide area networks.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
