Model: Q27B35E

Manufacturer: AOC INTERNATIONAL

EAN: 4038986183062

Product Code: 301688

R2,934

The AOC Basic-line Q27B35E is a 27-inch desktop monitor that provides QHD resolution of 2560 x 1440, offering image clarity and vibrant colors. With a pixel density of 108.79 PPI, this monitor enhances the details in images and videos, making it suitable for work and leisure. The 75 Hz V-Sync rate ensures smooth motion performance, ideal for fast-paced graphics or gaming, complemented by a rapid 1 ms response time that minimizes blurring during movement. Users can enjoy an expansive viewing experience, thanks to the 178-degree horizontal and vertical viewing angles that maintain color accuracy and clarity from various positions. In addition to its visual capabilities, the monitor features Flicker-Free and Low Blue Light technologies, designed to reduce eye strain during prolonged use. The 3-sided frameless design adds a sleek touch, while its adjustable tilt angle allows for ergonomic positioning. With multiple input options, including HDMI and DisplayPort, the AOC Q27B35E easily connects to various devices. Its WLED backlight technology and HDR10 support enhance flexibility in achieving the desired visual experience.
