R7,169

The Philips 32B2U3601 offers an immersive 32-inch desktop experience with vibrant 2560 x 1440 QHD resolution. Enjoy clear and crisp visuals with a pixel pitch of 0.2727 mm, suitable for both work and entertainment. The monitor features IPS technology that provides wide 178-degree horizontal and vertical viewing angles, ensuring consistent image quality from different perspectives. The anti-glare coating enhances visibility in various lighting conditions, while SmartImage technology optimizes settings based on content type for an improved viewing experience. With integrated Adaptive-Sync and Flicker-Free technology, users can enjoy a smoother display with reduced eye strain during extended use. In addition to its visual capabilities, this monitor is designed for functionality. The Philips 32B2U3601 includes a built-in USB hub and a Gigabit Ethernet network adapter for convenient connectivity. With height, tilt, pivot, and swivel adjustments, it allows for customizable ergonomics, ensuring comfort during long working hours. The monitor's energy-
