The Philips Evnia 3000 27M2N3501PA monitor provides a viewing experience with its 27-inch display featuring a native resolution of 2560 x 1440. With a pixel pitch of 0.2331 mm and an image contrast ratio of 1000:1, every detail is rendered clearly and vibrantly. This monitor has a refresh rate of 260 Hz, making it suitable for gaming and fast-paced visuals. The display provides a wide horizontal and vertical viewing angle of 178 degrees, ensuring consistency in color and image quality from various positions. Equipped with Flicker-Free technology and LowBlue mode, it prioritizes eye comfort during extended usage.

Designed with versatile adjustments, the monitor offers height adjustment up to 130 mm, pivot rotation, swivel capability, and tilt options from -5 to +20 degrees, catering to individual ergonomic needs. Features like SmartContrast, Smart Image Game, and Low Input Lag enhance performance, making it suitable for gamers and professionals. With support for HDR10 and an extensive color gamut covering up to 120% sRGB, content looks vibrant and true to life, while the anti-glare coating
