Experience gaming like never before with the AOC Gaming Q27G4ZR. This 27-inch desktop monitor boasts a QHD resolution of 2560 x 1440, ensuring every detail of your favorite games comes alive. With a rapid refresh rate of 240 Hz and a response time of 0.3 ms, action sequences are rendered smoothly and clearly, minimizing motion blur even in intense moments.

The monitor features technologies such as Flicker-Free and Adaptive-Sync, designed to enhance your gaming experience and reduce eye strain. Its anti-glare coating allows for comfortable viewing in various lighting conditions, while wide horizontal and vertical viewing angles ensure a consistent viewing experience from multiple positions. With support for HDR and a vibrant color gamut, the Q27G4ZR delivers accurate colors and dynamic contrasts, bringing your visuals to life.
