The Philips 24B2N2200 delivers a viewing experience with its 24-inch desktop display, featuring a native resolution of 1920 x 1080 for clear visuals. This monitor supports a wide color gamut, covering 110% sRGB and 96% NTSC, ensuring vibrant color reproduction. With horizontal and vertical viewing angles of 178 degrees, it allows for flexibility in positioning without loss of clarity or color. Equipped with Flicker-Free technology and SoftBlue Technology, the display offers a comfortable viewing experience, reducing eye strain during extended usage.

Additionally, the Philips 24B2N2200 incorporates multiple connectivity options, including HDMI, VGA, and DisplayPort, providing compatibility with various devices. The monitor's design includes a tilt adjustment feature, allowing users to find their optimal viewing angle easily. With energy-efficient performance and eco-friendly standards, this monitor combines functionality with sustainability, making it a valuable addition to any workspace or home office.
