1500000:1, ensuring deep blacks and brilliant whites that elevate gaming and content consumption. With a response time of just 0.03 ms, fast-moving scenes are displayed seamlessly, making it ideal for both gaming and professional use.

Equipped with versatile features such as Picture-in-Picture, HDR support, and ASUS GameVisual Technology, the monitor caters to gamers and creatives alike. The ergonomic design allows for height adjustment, tilt, and swivel to enhance comfort during extended gaming sessions or work hours. Functionalities like KVM switch, USB hubs, and ASUS Aura Sync technology provide convenience and customizable aesthetics. The ASUS ROG Swift OLED PG27UCDM combines performance and flexibility to meet the demands of users seeking clarity and vibrant visuals in a sleek package.
