R29,404

The Lenovo ThinkPad L14 Gen 6 offers a blend of performance and versatility suitable for both work and travel. With a 14-inch WUXGA IPS display featuring a resolution of 1920 x 1200, it provides clear visuals with a brightness of 400 cd/m². The anti-glare screen, equipped with 3M DBEF5 technology, ensures comfortable viewing in various lighting conditions. The connectivity options include USB-C, HDMI, and an array of USB ports, allowing for seamless integration with peripherals and external displays.

Powered by an Intel Core Ultra 7 processor with 10 efficient cores and coupled with DDR5 SDRAM, this notebook delivers reliable performance for multitasking and demanding applications.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Additionally, the dual array microphone and stereo speakers enhance the audio experience, while the fixed-focus webcam with a privacy shutter adds a layer of security during video calls. Overall, the Lenovo ThinkPad L14 Gen 6 is a well-rounded device designed for productivity and connectivity on the go.
