R8,852

The LG UltraWide 34BA75QE-B is a feature-rich monitor designed for those who value expansive screen real estate and stunning visuals. With a 34-inch diagonal size and a native resolution of 3440 x 1440, this monitor enhances productivity and entertainment through its wide aspect ratio of 21:9. The IPS TFT technology provides vibrant colors and excellent viewing angles, allowing for a clear image from virtually any position. Equipped with built-in devices such as a KVM switch and USB hub, this monitor fosters easy connectivity and efficient multitasking, making it suitable for home, office, or gaming settings. The monitor also emphasizes user comfort with adjustable features, including tilt, height, and swivel options, accommodating different work styles. Additionally, its ergonomic stand and Flicker Safe technology help reduce eye strain during long usage sessions. The presence of HDR support delivers enhanced dynamic range and improved color fidelity, while the audio system with stereo speakers ensures a quality sound experience. Enjoy HDR10 content and other
