DCI-P3. The monitor features HDR capabilities with a VESA DisplayHDR 600 certification, ensuring images that pop with brightness and contrast. With a brightness of 600 cd/m² and a contrast ratio of 3000:1, it excels in displaying high-dynamic-range content, making it suitable for photo editing, video production, and graphic design tasks.

Featuring a versatile design, the display can be adjusted for height, tilt, swivel, and pivot, allowing users to find the perfect viewing angle. Additional features include an ambient light sensor, built-in USB hub, and a KVM switch for control of multiple devices from a single keyboard and mouse setup. The anti-glare and low-reflection coating ensures that viewing remains comfortable in various lighting conditions. With connectivity options including Thunderbolt 4, DisplayPort, and HDMI, the ASUS ProArt PA32QCV integrates into any professional workspace, providing performance and flexibility.
