R5,625

The Philips 32B2N3500 monitor features a 32-inch QHD display with a native resolution of 2560 x 1440, delivering sharp images and vibrant colors with support for 1.07 billion colors. Its IPS technology ensures wide viewing angles of 178 degrees both horizontally and vertically, making it suitable for collaborative work or immersive gaming. The monitor is designed with eye comfort in mind, incorporating Flicker-Free technology and SoftBlue Technology to reduce strain during long working hours.

The versatile display position adjustments including height, tilt, and swivel combined with Smart Ergo base provide a comfortable and customizable viewing experience. This monitor is also equipped with a built-in USB hub, allowing easy connection to various peripherals. The energy-efficient design,
