The Philips 32B2U3601H monitor presents a 32-inch desktop display with a 2560 x 1440 QHD resolution, delivering image clarity and color reproduction across 1.07 billion colors. With a 178-degree horizontal and vertical viewing angle, this monitor is designed for comfortable viewing from multiple positions, making it suitable for both work and entertainment. Technologies such as Flicker-Free technology and SoftBlue Technology help reduce eye strain, providing a more pleasant viewing experience during long hours of use.

Additionally, the built-in 5.0 megapixel camera and Gigabit Ethernet network adapter enhance connectivity and functionality for remote work or video conferencing. The monitor features a range of display position adjustments, including height, pivot, swivel, and tilt, enabling users to customize
