The AOC AGON PRO AG276QKD2 is a 27-inch OLED monitor designed for gaming and professional use. With a native resolution of 2560 x 1440 and a contrast ratio of 15,000,000:1, this monitor ensures vibrant visuals that are detailed. The Quantum Dot OLED technology provides excellent color accuracy and depth, supporting 1.07 billion colors for an immersive viewing experience. Equipped with NVIDIA G-SYNC and VESA Adaptive-Sync, it delivers smooth gameplay, while the response time of 0.03 ms ensures that fast-moving scenes are displayed sharply without blurring.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The monitor features modes tailored for different gaming genres, including FPS and RTS modes, enhancing the gaming experience.

Adjustability is a key feature of the AG276QKD2, with height, tilt, swivel, and pivot adjustments for optimal comfort. Flicker-Free technology and Low Blue Light mode help reduce eye strain, making it suitable for long gaming sessions or extended work. The monitor also includes a built-in USB 3.2 Gen 1 hub for easy connectivity. With HDR capability and a maximum brightness of 1000 cd/m<sup>2</sup>, the AOC AGON PRO monitor enhances the visual quality of HDR content, making it a supplement to any gaming or multimedia setup.
