The AOC Gaming Q27G4ZDR 27-inch monitor elevates the gaming experience with its Quantum Dot OLED display, delivering a native resolution of 2560 x 1440. The 240 Hz refresh rate and ultra-fast 0.03 ms response time minimize lag and ensure smooth gameplay, while HDR10 support enhances contrast and color accuracy. The monitor's wide 178-degree viewing angles provide consistent visuals from nearly any position.
