The BenQ GW2490C is a 24-inch desktop LED-backlit LCD monitor that delivers a Full HD experience with a native resolution of 1920 x 1080. Featuring a sleek design with a slim bezel, this monitor allows for a wide viewing angle of 178 degrees both horizontally and vertically, making it suitable for various settings and activities. With a response time of 5 ms and a V-Sync rate of up to 144 Hz, it adapts smoothly to fast-moving visuals, ensuring clarity during action sequences or gaming sessions.

Equipped with innovative technologies, the GW2490C prioritizes eye health with features like Low Blue Light Plus and Flicker-Free technology. The monitor also includes a Color Weakness Mode, catering to diverse visual needs. Additionally, with display modes optimized for gaming and cinema, users can customize their viewing experience. It supports a wide color gamut with 99% sRGB, delivering vibrant and accurate imagery in every application from entertainment to professional use.
