R3,552

The BenQ GW2490TC is a 24-inch desktop monitor that provides visuals and performance. Featuring a native resolution of 1920 x 1080 in Full HD and a refresh rate of 144 Hz, it ensures smooth gameplay and vibrant imagery. With a brightness of 250 cd/m² and a contrast ratio of 1500:1, every detail pops, making it suitable for both gaming and multimedia consumption.

Built with technologies such as AMD FreeSync, Flicker-Free technology, and Low Blue Light Plus technology, this monitor emphasizes eye-care and comfort during extended use. With a wide viewing angle of 178 degrees and a slim bezel design, it enhances any workspace while delivering an immersive experience. The adjustable height, tilt, swivel, and pivot features make it easy to customize the viewing position.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
