The AOC Gaming U27G4XM is a 27-inch desktop monitor designed to elevate the gaming experience. With a native resolution of 3840 x 2160 and a V-Sync Rate at maximum resolution of 160 Hz, it ensures smooth and crisp visuals that bring games to life. The Fast IPS technology delivers vibrant colors and wide viewing angles, making it suitable for both gaming and multimedia use. Equipped with various monitor features such as Flicker-Free technology, Crosshair Display, and AOC Shadow Control, this monitor enhances gameplay by minimizing distractions and improving visual clarity. For gamers and professionals alike, the AOC Gaming U27G4XM offers multiple connectivity options, including HDMI and DisplayPort, along with a USB 3.2 Gen 1 hub for easy peripheral connection.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Additionally, the monitor supports adaptive sync technology, making it compatible with NVIDIA G-SYNC, reducing screen tearing for a more enjoyable gaming experience. Its height, tilt, pivot, and swivel adjustments provide the flexibility to customize viewing positions, ensuring comfort during extended gaming sessions.
