**R13,160**

The AOC Gaming Q27G4SDR monitor features a 27-inch Quantum Dot OLED display with a native resolution of 2560 x 1440. With a refresh rate of up to 360 Hz and a response time of 0.03 ms, this monitor is suitable for fast-paced gaming and smooth visuals. The anti-glare coating and wide viewing angles of 178 degrees ensure a comfortable viewing experience, while support for NVIDIA G-SYNC technology reduces screen tearing.

Equipped with built-in features, including a USB 3.2 hub and support for MultiView, this monitor caters to productivity and gaming needs. The 99.1% DCI-P3 color gamut with HDR capability enhances image quality, making it suitable for content creation and entertainment. Flexible adjustments for tilt, swivel, and height allow users to customize their viewing position, ensuring comfort during long gaming sessions.
