Product Code: 302583

R3,692

The Philips Evnia 3000 27M2N3500NF monitor combines features with high-quality visuals, suitable for gaming and productivity tasks. With a 27-inch QHD display and a native resolution of 2560 x 1440, this monitor delivers clarity and detail in every frame. The TFT active matrix technology ensures vibrant colors and an image contrast ratio of 1500:1 for an immersive viewing experience. A refresh rate of up to 144 Hz and a response time of just 0.5 ms provide smooth motion handling, making it suitable for fast-paced gaming. Additionally, the anti-glare coating allows for comfortable viewing in various lighting conditions, reducing eye strain during extended use. Equipped with features such as SmartContrast, SmartImage, and LowBlue Mode, the Philips Evnia 3000 allows users to customize display settings for an enhanced visual experience. The monitor supports adaptive-sync technology and has a wide viewing angle of 178 degrees, ensuring that every detail remains visible

from multiple perspectives. With multiple input options, including HDMI and DisplayPort, connecting
