

BENQ PD2770U 27inch 4K IPS 99 ADOBERGB 99 DCI-P3 USB-C PD96W RJ45 HW CALIBRATOR

Model: 9H.Y0ELB.QBE

Manufacturer: BENQ

EAN: 4718755097416

Product Code: 302591

R40,028

Elevate visual experience with the 27-inch BenQ PD2770U monitor, designed for professionals and enthusiasts who appreciate image quality. With a native resolution of 3840 x 2160 and 4K UHD video format, the monitor delivers clarity and detail. The IPS technology ensures vibrant colors, supporting up to 1.07 billion colors and offering a 100% Rec 709 color gamut alongside 99% Adobe RGB and DCI-P3 coverage, ideal for graphic design and content creation.

The monitor features versatile connectivity options including HDMI, DisplayPort, and USB-C, compatible with a wide range of devices. Built-in USB-C hub and Ethernet network adapter enhance productivity by allowing connection to peripherals. Ergonomic adjustments such as height, pivot, swivel, and tilt create a comfortable viewing experience, catering to various user needs. Enhanced features like HDR10 support, Picture-in-Picture, and advanced calibration options make the BenQ

PD2770U a choice for anyone seeking performance in a sleek design.
