

SILICON POWER DDR5 16GB 5600MHz U- DIMM

Model: SP016GBLVU560F02

Manufacturer: SILICON POWER COMPUTER &
COMMUNICAT

EAN: 4713436152149

Product Code: 302600

R5,918

Experience enhanced performance with the SILICON POWER 16 GB memory module, designed for modern computing needs. With a data transfer rate of 5600 MT/s and utilizing DDR5 SDRAM technology, this module ensures rapid data processing and efficient multitasking capabilities. The built-in Power Management IC enhances its efficiency while maintaining a low supply voltage of 1.1 V, making it an eco-friendly choice compliant with several environmental standards such as RoHS and WEEE.

This unbuffered DIMM 288-pin form factor memory module features a CAS Latency of CL46, contributing to reduced latency and improved responsiveness. Ideal for users seeking to upgrade their systems, this memory module is compatible with generic upgrade types, providing a reliable solution for enhanced computing performance.
