fluid visuals, making it an ideal choice for gamers and multimedia enthusiasts. Its brightness level of 350 cd/m² and a dynamic contrast ratio of 80000000:1 work together to deliver brilliant colors and deep blacks, while the matte display coating minimizes glare for comfortable viewing in various lighting conditions. In addition to high-performance visuals, the G2741HSU-B1 is equipped with features that enhance user convenience. The built-in USB 3.2 Gen 1 hub simplifies connectivity, allowing easy access to multiple devices. With HDMI and DisplayPort inputs, it seamlessly connects to a variety of systems. The monitor also supports AMD Adaptive-Sync technology, reducing screen tearing for a more enjoyable experience. Built-in speakers provide stereo sound output, further reducing the need for external devices.
