

GIGABYTE GeForce RTX 5050 D6 8GB

Model: GV-N5050D6-8GD

Manufacturer: GIGABYTE

Product Code: 302711

R7,279

The GIGABYTE D6 graphics card is designed for high-performance gaming and professional applications. Featuring an NVIDIA GeForce RTX 5050 GPU, this graphics card supports a maximum external resolution of 7680 x 4320, suitable for multi-monitor setups with support for up to 4 displays. With 8 GB of GDDR6 SDRAM video memory and a 128-bit bus width, users can expect smooth graphics rendering and fast processing speeds thanks to a memory speed of 20 Gbps. Equipped with a variety of features, the D6 graphics card includes 4th generation Ray Tracing Cores and 5th generation Tensor Cores, enhancing visual fidelity and performance. Its durable VGA construction, combined with advanced cooling solutions like the 90mm Unique blade fan design and Hawk Fan design, ensures optimal thermal management. Additional capabilities like NVIDIA G-Sync readiness and support for APIs such as DirectX 12 and OpenGL 4.6 provide a seamless gaming experience.
