The HP Pro 400 G9 desktop is designed to meet the demands of modern workspaces with its Intel Core i5 processor and Intel UHD Graphics, ensuring smooth performance for both professional and personal use. This desktop is not only about power; it also prioritizes security with the inclusion of the Trusted Platform Module (TPM 2.0) security chip, safeguarding your sensitive information from external threats. Networking is made easy and efficient with support for Ethernet, Fast Ethernet, and Gigabit Ethernet, complemented by Wake on LAN (WoL) functionality for remote access convenience. Additionally, its commitment to environmental sustainability is evident through its
