The MikroTik Chateau 5G R17 ax is a wireless router designed to optimize home or office connectivity. With dual-band support for 2.4 GHz and 5 GHz Wi-Fi 6 technology, it delivers data rates of up to 1200 Mbps on the 2.4 GHz band and 574 Mbps on the 5 GHz band. It features a quad-core CPU with a clock speed of 1.8 GHz and 1 GB of RAM, ensuring seamless performance for multiple devices and heavy Internet usage. The integration of 4 internal LTE antennas and 2 external detachable antennas providing a 6 dBi gain enhances signal reception and stability for cellular connections over 5G, 4G, and 3G networks. Additionally, the integrated 5-port switch and support for Ethernet connections offer versatile networking options for wired and wireless devices.
