Model: 90LM0CB1-B01N71

Manufacturer: ASUS

EAN: 4711636223201

Product Code: 303182

## **R3,632**

The ASUS ZenScreen MB16FC is a portable 16-inch LED-backlit LCD monitor designed for versatility and convenience. With a native resolution of 1920 x 1200, it delivers sharp image clarity for work and entertainment. The IPS technology ensures vibrant colors and wide viewing angles of 178 degrees, allowing for comfortable viewing from different positions. This monitor features a sleek and lightweight design, making it an ideal companion for professionals on the go or for those who require an additional screen at home or office.

Equipped with two USB-C ports for seamless connectivity, the MB16FC supports DisplayPort Alt Mode and provides power delivery of up to 65W. The monitor enhances user experience with its auto-rotation capability and Display Widget software. With a power consumption of only 7 kWh/1000h in SDR mode, this display is also ENERGY STAR certified, contributing to energy savings without compromising performance.
