The ASUS ProArt PA248QFV is designed for professionals seeking a reliable display. With a 24.1-inch diagonal size, this monitor features a native resolution of 1920 x 1200 and a dynamic contrast ratio of 3000:1. IPS technology ensures vibrant colors with 100% Rec 709 and 100% sRGB color gamut accuracy, making it ideal for graphic design, video editing, and color-sensitive work. Additionally, the monitor supports HDR10, enhancing visual quality through advanced dynamic range capabilities. The ergonomic stand offers several display position adjustments, including height, tilt, swivel, and pivot, ensuring optimal comfort during use. Equipped with built-in features such as a USB 3.2 Gen 1 hub and ambient light sensor, the PA248QFV adapts to your workspace. Technologies like Flicker-Free and Low Blue Light are included to reduce eye strain during extended usage. The display's quick response time of 5 ms enhances performance, making this monitor an essential tool for creators.
