

Huion Kamvas Pro 13 GT133 graphics tablet

Model: GT133

Manufacturer: HUION

EAN: 6930444801038

Product Code: 303521

R6,208

Huion Kamvas Pro 13 graphics tablet

The HUION Kamvas Pro 13 is a graphics tablet that will perform well in everyday work. The anodized aluminum chassis emphasizes the build quality. The device is very slim - it is only 11 mm thick - and lightweight, weighing 910 g, making it an excellent choice for people who often work in different places and need equipment that can be easily packed in a bag or backpack. The front part of the case is made with full lamination technology, which increases durability and has a positive effect on the quality of the displayed image.

An image that captures every detail

The Kamvasa Pro 13 uses a 13.3-inch IPS screen with a resolution of 1920 × 1080 pixels and an aspect ratio of 16:9. With a brightness of 220 cd/m² and a contrast ratio of 1000:1, colors are clear and tonal transitions well defined. The AG anti-glare glass used on the screen surface significantly reduces glare and improves comfort, especially in bright rooms. Thanks to the 178° viewing angle

(89° on each side), you can look at the screen from any angle without losing image quality - especially important when presenting your work to others.

Excellent color reproduction and image depth

The Kamvas Pro 13 offers very good color space coverage - as much as 120% of the sRGB gamut - which means the screen displays more saturated and realistic colors. Support for 16.7 million colors (8-bit) allows for precise rendering of every detail, and the laminated screen eliminates the parallax effect - that is, the cursor always coincides perfectly with the tip of the stylus, significantly increasing precision and allowing you to focus solely on creating.

Stylus included

Included with the tablet is the PW507 stylus, which uses EMR (electromagnetic resonance) technology, so there is no need to charge or plug it in. The stylus offers 8192 levels of pressure, allowing you to create both delicate sketches and firm, decisive strokes. It also supports tilt up to $\pm 60^\circ$, allowing for more natural shading and working with different angles of tilt. The stylus' 5080 LPI resolution, high reading speed of more than 220 PPS and precision of up to ± 0.5 mm at the center of the screen translate into very smooth, dynamic and accurate drawing without lag. The stylus is also equipped with two function buttons that can be freely programmed, such as an eraser or right-click.

Comfortable working for long hours

The 4 programmable buttons on the case and the touch bar (touch bar) allow quick access to frequently used functions, such as brush resizing, canvas zooming and undo. Also included is the ST300 folding stand, which offers six tilt angles - from 14.5° to 45° - allowing you to customize the position of the screen. This ensures that working even for several hours does not put undue strain on your wrists.

Stable connectivity

You'll connect the Kamvas Pro 13 to your computer with a single 3-in-1 cable that supports power, data transfer and HDMI video simultaneously. This solution reduces the number of cables on your desk and provides better organization of your workspace. The USB-C connector has been gently

recessed, which reduces the risk of accidental disconnection and improves the durability of the connection. The device works stably and does not require complicated configuration.

Wide compatibility

HUION Kamvas Pro 13 is compatible with Windows 7 and later, macOS 10.12+ and Linux (such as Ubuntu 20.04 LTS). It works seamlessly with major graphics programs such as Adobe Photoshop, Illustrator, Clip Studio Paint, Krita, GIMP and SAI.

Included

- tablet
- stylus
- x10 tips (in the stylus holder)
- stylus holder
- Clip for stylus insert (inside stylus holder)
- 3-in-1 cable
- power adapter
- stand
- user manual
- cleaning brush

Tablet

Manufacturer	HUION
Model	Kamvas Pro 13
Dimensions	388 x 219 x 11 mm
Working surface	293.76 × 165.24 mm
Weight	910 g
Touch bar	yes
Screen tilt adjustment	yes, ST300 stand 20°/45°

Video interface	USB-C
Resolution	1920 x 1080 (16:9)
LCD screen type	IPS
AG glass	Anti-glare glass
Full screen lamination	yes
Contrast ratio	1000:1
Brightness	220cd/m ²
Response time	25 ms
Viewing angle	89°/89°(H)/89°/89°(V) (Typ.)(CR ≥ 10)
Color gamut	120% sRGB
Display color	16.7M(8bit)
Input voltage	100-240VAC,50/60Hz
Output voltage	12V/1A
Power consumption	≤9W

Power consumption in standby mode ≤0.2W

Operating temperature and humidity 0-40°C, 20-80%

Storage temperature and humidity -20°C~60°C, 10-90%

Compatibility Windows 7 or later; macOS 10.12 or later; Linux

Stylus

Model PW507

Technology EMR, no battery

Resolution 5080 LPI

Pressure sensitivity 8192 levels

Tilt support ±60°

Detection height 10 mm

Reading speed >220 PPS

Accuracy ±0.5 mm (center); ±3 mm (edges)
