HOTWAV A16 Pro Max smartphone (green)

The HOTWAV A16 Pro Max is a smart smartphone that combines flagship performance with a lightweight, slim design and elegant appearance. The large, smooth screen ensures comfortable viewing and everyday use, while the powerful components guarantee fast and stable performance even with intensive use. Advanced artificial intelligence features from Google Gemini mean that the phone actively supports you every day – from creativity to task organization. The whole thing is complemented by a high-capacity battery, a high-quality camera, and the Android system, making the A16 Pro Max a great choice for those who want an advanced, versatile smartphone for special tasks.

Slim and lightweight design

The slim silhouette of the device gives the smartphone a modern and elegant look, while remaining comfortable during long periods of use – both at work and for entertainment. The uniform, discreet color emphasizes its universal, professional character.

Artificial intelligence at your beck and call

The smartphone uses Google Gemini 2.5 Flash technology, described as the most advanced AI model for mobile devices. In practice, this means access to an AI assistant that supports you in your daily tasks, enables you to generate images using AI, and analyzes photos to help you better interpret and organize visual content. It's intelligent support that enhances the smartphone experience.

Smoothness that surprises

The smartphone is equipped with a large 6.75-inch INCELL display with a refresh rate of 120 Hz. This screen provides a large workspace and exceptional smoothness in animation, scrolling, and gaming. The image is clear, dynamic, and pleasing to the eye, which will be appreciated by both multimedia enthusiasts and heavy app users.

Huge expansion possibilities

At the heart of the HOTWAV A16 Pro Max is a high-performance octa-core processor that guarantees efficient multitasking and stable system operation. An additional advantage is the possibility of expanding the memory with a TF card up to 1 TB, which allows you to store photos, videos, documents, and applications without constantly worrying about free space.

Camera and battery ready for every day

The smartphone is equipped with a clear 13 MP main camera, which is perfect for everyday photography, capturing details and natural colors. The whole thing is complemented by a 5160 mAh battery, ensuring long operating time without the need to frequently reach for the charger. It is the perfect solution for active users who need reliable equipment throughout the day.

Intuitive system and secure unlocking

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
