HOTWAV TAB Pad 13 Pro Tablet (Gray)

The HOTWAV TAB Pad 13 Pro is a lightweight and slim tablet designed for a mobile lifestyle. It offers a clear, smooth image on a large screen, long battery life, and versatility that works well for both entertainment and everyday work. When paired with a keyboard, mouse, and stylus, it allows you to write, create, and take notes comfortably, transforming into a practical tool for learning, creativity, and work—whenever and wherever you need it.

Lightness that changes everyday life

The HOTWAV TAB Pad 13 Pro tablet is designed for uncompromising mobility. It weighs only 468 grams and is only 8 mm thick, so it fits easily into a bag or backpack and is always ready for action. The slim, refined design combines modern aesthetics with practicality, making it ideal for work, entertainment, and travel.

Eye-catching image

The 10.1" INCELL HD screen turns everyday content into a real feast for the eyes. With a resolution of 800 × 1280 px, a 16:10 aspect ratio, and a brightness of up to 400 nits, it delivers a clear, colorful image in all conditions. Wide viewing angles allow you to enjoy excellent quality from almost any perspective – whether you're watching a series, reading an e-book, or playing your favorite game.

High level of smoothness

With a refresh rate of 120 Hz, the tablet's interface is smooth and responsive. Every swipe, scroll, and animation looks natural and blur-free. This advantage will be especially appreciated by fans of dynamic games such as FPS or racing games, where 120 frames per second translates into both a better visual experience and a significant advantage in gameplay.

Power for hours

The built-in 6580 mAh battery is designed for intensive use. The tablet keeps pace with your daily routine, offering up to 22 days of standby time, up to 22 hours of talk time, and up to 24 hours of audio playback. It's a reliable companion for long journeys, studying, remote working, and evening relaxation without constantly reaching for the charger.

A mobile office at your fingertips

The tablet comes with a wireless keyboard and mouse that can turn any place into a functional workstation in just a few moments. Whether you're in a café, on a train, or at your desk at home, you can comfortably write, edit documents, and carry out your daily tasks with complete freedom. The included precision stylus allows you to write, sketch, take notes and annotations naturally, as well as intuitively control the tablet. It's the perfect tool for students, professionals, and anyone who likes to transfer ideas to the screen as soon as they pop into their head.

Included in the set

- tablet
- keyboard
