ONIKUMA MT706 Keyboard (black) (QWERTY)

The ONIKUMA MT706 is a multi-functional, compact mechanical keyboard designed for dynamic gameplay, maximum comfort and full personalization. It offers triple connectivity mode (2.4 GHz, Bluetooth, wired), ultra-fast 1 ms response time and wide compatibility with PCs, consoles and mobile devices. Equipped with interchangeable in-line switches, an advanced sound suppression system and dynamic RGB backlighting, it will meet the expectations of the most demanding users.

Stable and fast connectivity

The keyboard supports three modes of operation: 2.4 GHz, Bluetooth and wired connection, which guarantees flexibility and reliability. With a response time of 1 ms, it is perfect for tournament games, providing instant response. Compatibility with computers, consoles and smartphones makes

the MT706 a versatile tool for any platform.

Smooth and quiet operation

The applied sealing architecture with a 5-layer soundproofing system ensures extremely quiet key operation. Linear switches are hot-swappable, and finely tuned stabilizers take care of the smoothness of pressure. Thanks to transparent keycaps made of double-injected PBT and a sonic "Mahjong" profile, typing on this keyboard is a pleasure.

Ready for long sessions

The ONIKUMA MT706 offers up to 30 hours of continuous use with RGB backlighting on and up to 600 hours in standby mode without lighting. The built-in, hidden USB-C port allows for quick charging and convenient connection. With a compact layout of 81 keys, the keyboard maintains full functionality while saving space.

Ergonomics and personalization

Equipped with two-stage feet for three-angle tilt adjustment, a magnetic palm rest and a multimedia dial, the MT706 offers full comfort. Dynamic RGB backlighting with a palette of 16.8 million colors is freely configurable. The open macro platform and hot-swap slots make it fully customizable.
