Neewer X17 II teleprompter

The NEEWER X17 II is an advanced teleprompter featuring a 17-inch screen with 71% light transmittance, allowing for comfortable reading of text from a distance of up to 4 meters. The device supports equipment weighing up to 20 kg and is ready to use right out of the box—no assembly required. The adjustable 45° tilt angle and the ability to precisely position the camera ensure comfortable operation and natural eye contact during recordings.

Quick setup and convenient operation

The teleprompter is equipped with an improved quick-release mount compatible with the 501PL system, which allows for instant camera attachment in just one second. The mounting platform allows for height adjustment within a range of 56–89 mm and sliding the camera along a 248 mm

rail, making it easy to achieve the perfect frame. Additional lens hoods reduce glare and improve text readability.

App control and full control

The kit includes the RT113 remote control, which connects to your smartphone via Bluetooth and works with the NEEWER Teleprompter app. This allows you to conveniently control text scrolling, adjust the speed, and pause the recording without touching the device. The silent buttons won't disrupt your work, and the app is available for iOS and Android.

Wide compatibility and mobility

The mobile device mount supports tablets and smartphones up to 235 mm wide, offering great flexibility in choosing your equipment. Standard 1/4" and 3/8" threads allow for mounting on most tripods, increasing stability during recording. The foldable design and included padded carrying case facilitate storage and transport.

Included

- X17 II Teleprompter x1
- RT113 Remote Control x1
- Carrying Case x1
