Step Into the World of Performance Gaming

Step into the world of high-end gaming gear with the HyperX Pulsefire Haste 2 Core Wireless. This economical alternative to the original Pulsefire Haste 2 features a familiar symmetrical shape in a lightweight frame with an operating weight of only 70 grams^[3]. Powered by a single AAA battery, this mouse can game via a high-speed 2.4GHz connection for up to 100 hours^[1]. Or switch to Bluetooth mode for even longer battery life with a reduced polling rate, perfect for casual gaming. Inside you'll find the HyperX Custom Core Sensor, capable of up to 12,000 DPI with a maximum polling rate of 1,000Hz to execute quick actions and smooth sweeping movements. You can also count on the durable and tactile TTC Gold switches to keep you gaming with a lifespan of up to 20 million clicks^[4]. Making those movements easier are the low-friction skates that glide across cloth

mouse pads with ease. Connecting to HyperX NGENUITY Software^[5] unlocks the full potential of the Pulsefire Haste 2 Core Wireless. There you can quickly reassign vital functions and macros to the 6-button interface, set precise DPI levels for pin-point tracking, adjust the polling rate to fine-tune performance, and even customize RGB lighting and effects to fit your unique style. The Pulsefire Haste 2 Core Wireless is also validated to work with NVIDIA Reflex^[6] to optimize end-to-end system latency with compatible monitors.

- Get up to 100 hours^[1] of performance Pulsefire Haste 2 Core Wireless in highspeed 2.4GHz mode. Or connect via power-efficient Bluetooth 5.2 for up to 200 hours^[2] of use at a reduced polling rate.
- Make light work of long gaming sessions. With an operating weight of only 70 grams³ this mouse enables you to move quicker, react faster, and feel less fatigue.
- Use the dongle to connect via 2.4GHz wireless or use Bluetooth Mode to connect to compatible devices.
- The HyperX Custom Core Sensor is designed to provide competitive performance, with customizable presets up to 12,000 DPI and a polling rate up to 1,000Hz.
- The Pulsefire Haste 2 Core Wireless uses durable and tactile TTC Gold switches rated for up to 20 million clicks^[4].
- Be confident in every movement as the HyperX low-friction skates glide over mouse pads. Move quickly from target to target with minimal interference.
- Personalize lighting, set up macros and or key binds, and customize DPI settings with easy-to-use HyperX NGENUITY Software⁵ and get the most out of the Pulsefire Haste 2 Core Wireless.
- Pulsefire Haste 2 Core Wireless is NVIDIA Reflex Validated^[6]. It'll work with G-SYNC displays to provide precise system latency stats. Game with confidence knowing your PCs at its minimum system latency.

[1] Tested under continuous usage with lighting disabled, 2.4GHz mode, 1000Hz polling rate, and AAA Alkaline Battery. Battery life varies based on usage and computing conditions.

[2] Tested under continuous usage with lighting disabled, Bluetooth mode, 250Hz polling rate and AAA Alkaline Battery. Battery life varies based on usage and computing conditions.

[3] Weight of mouse with one AAA alkaline battery installed.

[4] Based on manufacturer testing and specifications.

[5] Per-LED RGB lighting is customizable with HyperX NGENUITY software. Connection via 2.4Ghz wireless adapter required for NGENUITY.
