More Intelligent, More Productive, More Secure

Experience effortless productivity with the ASUS Vivobook S16, your ideal companion for everyday life. Whether for work, study, or play, this laptop helps you power through any task, designed to be more productive, intelligent, and secure. Its sleek metallic design is both practical and stylish, with up to AMD Ryzen™ 7 260 processor and up to 19 hours of battery life¹ ensure all-day productivity. Enjoy stunning visuals on the vibrant 16:10 FHD 144Hz IPS display and immersive sound for better video calls and streaming. Built for a balanced lifestyle, the ASUS Vivobook S16 does more for you, giving you back time to enjoy life's everyday moments.

- Windows 11 Home 64-bit
- AMD Ryzen 7 260 (3.8GHz)
- 16" WUXGA 1920 x 1200 OLED
- 16GB DDR5-SDRAM & 1000GB SSD

markets and will be rolled out to additional markets over time. The Copilot key will be available on many new Windows PCs starting in early 2024. When Copilot in Windows is not enabled on the device, pressing the Copilot key will launch Windows Search See aka.ms/WindowsAIFeatures.

Battery tests conducted by ASUS on March, 2025 using the 1080p Video Playback scenario. Test configuration: Vivobook S16 (M3607HA), FHD IPS panel, AMD Ryzen™ 5 220, 512 GB SSD, 16 GB RAM, 70 WHrs battery. Test settings: WiFi disabled, Keyboard backlight disabled, Windows Power Mode set to Balance mode, display brightness set to 150 cd/m2 with headset, default earbud volume. Actual battery life may vary depending on product configuration, usage, operational conditions, and power management settings. Battery life will decrease over the lifetime of the battery.

The visual appearance of OLED displays may change over the product's lifetime. This is expected behavior that can include image persistence or burn-in, where the display shows a faint remnant of an image even after a new image appears on the screen. This tends to occur only in extreme use cases, such as when a static, high-contrast image is continuously displayed for prolonged periods of time. ASUS laptops with an OLED display minimize this risk by setting Windows's Dark mode as default, as well as shortening the idle time before the screen is turned off — both on mains (AC) and battery (DC) power. This dual approach minimizes the potential for burn-in to maximize the lifespan of your OLED display lifespan, and also reduces unnecessary power draw for optimal battery life. We also recommended adjust the brightness of your OLED display to complement the ambient lighting in your environment, rather than keeping the screen at maximum brightness at all times. You should also ensure that you have an animated, dark-background screensaver enabled in the Windows Settings tool.

Thickness might vary according to specifications.

Weight may vary by specifications.

Summary: ASUS Vivobook S16 M3607HA-SH080W Copilot+ PC. Product type: Laptop, Form factor: Clamshell. Processor family: AMD Ryzen™ 7, Processor model: 260, Processor frequency: 3.8 GHz. Display diagonal: 40.6 cm (16"), HD type: WUXGA, Display resolution: 1920 x 1200 pixels. Internal memory: 16 GB, Internal memory type: DDR5-SDRAM. Total storage capacity: 1 TB, Storage media: SSD. On-board graphics card model: AMD Radeon 780M. Operating system installed: Windows 11 Home.
